TURBOCHARGERS

The interplay between all rotating components is critical for the function, efficiency and durability of a turbocharger. Renault Trucks' strict specifications of all turbochargers ensures the correct rotor dynamics to deliver longevity, both for the turbo and the entire engine.

Renault Trucks eXchange turbochargers offer the exact same performance and lifetime as a new Renault Trucks Genuine turbocharger. In addition, because the turbocharger has been remanufactured at the original factory using only Renault Trucks Genuine parts, it also carries exactly the same warranty as a brand-new unit.
